PROFESSIONAL SUMMARY

Web developer with 3 years of professional experience, the last two in web development and website administration. Currently maintain the HR and IT websites at Indsao, and previously built and supported client websites at a Delhi digital agency. Skilled in the MERN stack (MongoDB, Express.js, React, Node.js), PHP, MySQL and WordPress. Strong customer-service background from Hamleys, which helps when working with stakeholders who are not technical. Holds an Advanced Diploma in Software Technology from NSIC (Government of India, MSME).

TECHNICAL SKILLS

Front end: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, Ajax

Back end: Node.js, Express.js, PHP 8, RESTful APIs, authentication and session management, SMTP email

Databases: MongoDB, MySQL

CMS and tools: WordPress, Git and GitHub, payment gateways (Razorpay, Stripe), responsive design, website maintenance and troubleshooting

WORK EXPERIENCE

HR & IT Executive (Web Developer) — Indsao 2025 – Present

Delhi, India

- Maintain and update two company websites, one for HR and one for IT, covering content, page layouts and functionality.
- Find and fix bugs, broken links and display problems so both sites keep working reliably.
- Work with the HR and IT teams to publish job openings, announcements and service information quickly and accurately.
- Keep pages responsive on mobile and desktop, and handle routine updates, backups and performance checks.
- Also support HR operations, including job postings, resume screening, interview scheduling, onboarding and employee records.

Web Developer — StyleMyCatalog Network Solutions 2024 – 2025

Delhi, India • Digital agency providing e-commerce, web development and digital marketing for SMEs

- Built and maintained responsive client websites, including daily troubleshooting, product catalogue updates and technical maintenance.
- Gathered requirements directly from business clients and turned technical issues into clear, practical solutions.
- Delivered client web projects on schedule, combining hands-on development with professional client communication.

Retail & Backend Operations Associate — Hamleys (Reliance Brands Ltd.) 2023 – 2024

Delhi, India • International toy retailer with 190+ stores worldwide

- First point of contact for customer questions, returns and complaints, and resolved them on the spot to keep satisfaction high.
- Recommended age-appropriate products to families based on what they needed.
- Handled point-of-sale billing, stock and backend operations, and store merchandising.

FREELANCE & CLIENT PROJECTS (LIVE WEBSITES)

Shreeji Atoz – shreejiatoz.com Web & app development agency site

- Building and maintaining the website for a web and app development agency that serves clients in Canada, the USA, the UK and Australia, with service, portfolio and process pages.
- Built it for performance and SEO, with a modern Vite-based front end, responsive layouts, motion and conversion-focused calls to action.

Sealspire India – sealspireindia.com Construction services website

- Developing the website for a Delhi NCR high-rise waterproofing and MEP contractor, with service pages, brand and partner sections, and a lead form for booking site audits.
- Wrote SEO-focused page titles and content for local search, and made every page responsive for mobile visitors.

TrueSpire – truespire.in / truespireindia.com Consultancy website

- Developing the website for a project management consultancy, with an interactive scroll-driven "build" section and detailed service pages, served on two domains.

Shopera – Full-Stack E-Commerce Application (Freelance) React, Node.js, Express, MongoDB, Tailwind

- Built and deployed a responsive store with product filtering, search, user authentication and secure sessions.
- Implemented a persistent cart, a multi-step checkout, Razorpay/Stripe payments, and order status emails.
- Built an admin dashboard for inventory, real-time stock, order tracking and category CRUD. Designed indexed REST APIs to cut query times.

Sysha Technologies Pvt. Ltd. – sysha.net Client project

- Developed authentication, user and admin dashboards, forms, payment integration, and SMTP email.

Personal Portfolio – rathorerahul.in Personal project

- Custom-built portfolio with a responsive layout and backend integration, built for performance and usability. More work at github.com/rahul-rathore-sd.
